AUTHOR INDEX

Autry, Doris E.
Laboratory Versus Wear Testing of Inheretly Flame Retardant Polyester Fabrics for Children's Sleepwear, p. 61

Braun, E.
Measurement of the Protective Value of Apparel Fabrics in a Fire Environment, p. 15

Cobb, D.
Measurement of the Protective Value of Apparel Fabrics in a Fire Environment, p. 15

Cobble, V. B.
Measurement of the Protective Value of Apparel Fabrics in a Fire Environment, p. 15

Condit, David A.
Evaluations of the Fire Performance of Flame Retarded Flexible Polyurethane Foam in an Upholstered Furniture Application, p. 99

Damant, Gordon H.
A Fire Safety Study of Penal Institution Mattresses, p. 71

A Bibliography of Published Information on Furniture Flammability: Part 2, p. 127

Consumer Research on Furniture Flammability, p. 150

Day, M.
A Technique for Evaluating the Smoulder Resistance of Loose Fiberfill Cellulose Insulation. II. Improved Methodology, p. 3

Donaldson, Darrell J.
A Boron-Nitrogen-Phosphorus System for Imparting Smolder Resistance to Upholstery Fabrics, p. 40

Eicher, William J.
Response of Polyurethane Foams to Cigarette Ignition Tests, p. 172

Gonzales, Elwood J.
Flame Retardant/Durable Press Finishing of Lightweight Cotton/Polyester Fabric, p. 218

Gorang, M. L.
Consumer Research on Furniture Flammability, p. 150

Grubits, S. J.
The Burn Hazard from Exploding Hydrogen-Filled Meteorological Balloons, p. 48

Harper, Jr., Robert J.
A Boron-Nitrogen-Phosphorus System for Imparting Smolder Resistance to Upholstery Fabrics, p. 40

Hilado, Carlos J.
Toxicity of Off-Gases from Some Cushioning Materials, p. 147

Fire Studies of Furniture: Review of Earlier Work, p. 161

Toxicity of Off-Gases from Furnishing Materials: A Review, p. 189

A Bibliography of Published Information on Smoldering Combustion. Part 2, p. 200

Fire Behavior of Building Contents: A Bibliography. Part 2., p. 203

Toxicity of Off-Gases From Some Household Materials, p. 229

A Bibliography on Full-Scale Fire Tests of Furnishings, p. 262

Holcombe, B. V.
The Burn Hazard from Exploding Hydrogen-Filled Meteorological Balloons, p. 48

Hoschke, B. N.
The Burn Hazard from Exploding Hydrogen-Filled Meteorological Baloons, p. 48

Development of Textile Flammability Standards in Australia, p. 133

Hughes, R. K.
Consumer Research on Furniture Flammability, p. 150

Hurwitz, Melvin D.
Laboratory Versus Wear Testing of Inherently Flame Retardant Polyester Fabrics for Children's Sleepwear, p. 61

Huttlinger, Patricia A.
Fire Studies of Furniture: Review of Earlier Work, p. 161

Toxicity of Off-Gases from Furnishing Materials: A Review, p. 189

A Bibliography of Published Information on Smoldering Combustion. Part 2., p. 200

Fire Behavior of Building Contents: A Bibliography. Part 2., p. 203

Toxicity of Off-Gases From Some Household Materials, p. 229

A Bibliography on Full-Scale Fire Tests of Furnishings, p. 262

Krasny, J. F.
Measurement of the Protective Value of Apparel Fabrics in a Fire Environment, p. 15

Kullman, M. H.
Flame Retardant/Durable Press Finishing of Lightweight Cotton/Polyester Fabric, p. 218

Langstaff, Witt I.
The Effect of Polyester Fiber Content on the Burn Injury Potential of Polyester/Cotton Blend Fabrics, p. 26

Lu, Wen-Chu
The Effect of Azo Dyes on the Flammability of Cotton, Polyester, and Cotton/Polyester Fabrics, p. 250

Madden, J. J.
The Burn Hazard from Exploding Hydrogen-Filled Meteorological Balloons, p. 48

McCormack, John A.
A Fire Safety Study of Penal Institution Mattresses, p. 71

McGee, K. M.
Consumer Research on Furniture Flammability, p. 150

McLellan, K. Rinn
Laboratory Versus Wear Testing of Inherently Flame Retardant Polyester Fabrics for Children's Sleepwear, p. 61

Moulen, A. W.
The Burn Hazard from Exploding

Hydrogen-Filled Meteorological Balloons, p. 48

Nakos, Steven T.
Evaluations of the Fire Performance of Flame Retarded Flexible Polyurethane Foam in an Upholstered Furniture Application, p. 99

Needles, Howard L.
The Use of Textile Flammability Standards by Expert Witnesses in Product Liability, p. 213

The Effect of AZO Dyes on the Flammability of Cotton, Polyester, and Cotton/Polyester Fabrics, p. 250

Oakland, Billie G.
Laboratory Versus Wear Testing of Inherently Flame Retardant Polyester Fabrics for Children's Sleepwear, p. 61

Olcomendy, Elaine M.
Toxicity of Off-Gases From Some Cushioning Materials, p. 147

O'Reilly, L. M.
Consumer Research on Furniture Flammability, p. 150

Orsi, James
Evaluations of the Fire Performance of Flame Retarded Flexible Polyurethane Foam in an Upholstered Furniture Application, p. 99

Peacock, R. D.
Measurement of the Protective Value of Apparel Fabrics in a Fire Environment, p. 15

Rua, Louis Jr.
Evaluation of the Fire Performance of Flame Retarded Flexible Polyurethane Foam in an Upholstered Furniture Application, p. 99

Rucker, M. H.
Consumer Research on Furniture Flammability, p. 150

Consumer Concerns About Furniture Flammability, p. 235

Suprunchuk, T.
A Technique for Evaluating the Smoulder Resistance of Loose Fiberfill Cellulose Insulation. II. Improved Methodology, p. 3

Szabat, John F.
Response of Polyurethane Foams to Cigarette Ignition Tests, p. 172

Trent, Lewis C.
The Effect of Polyester Fiber Content on the Burn Injury Potential of Polyester/Cotton Blend Fabrics, p. 26

Wiles, D. M.
A Technique for Evaluating the Smoulder Resistance of Loose Fiberfill Cellulose Insulation. II. Improved Methodology, p. 3

Williams, Sharon S.
A Fire Safety Study of Penal Institution Mattresses, p. 71

SUBJECT INDEX

Apparel, p. 15
Apparel Flammability, p. 26
Australia, textile flammability standards, p. 133

Balloons, p. 48
Bibliography, pps. 127, 200, 203, 262
Borax, p. 40
Building contents, p. 203
Burn hazard, p. 48
Burn injury, p. 26

Cellulose insulation, p. 3
Children's sleepwear, p. 61
Cigarette ignition, p. 99, p. 172
Civil litigation, p. 213
Combustibility, p. 3
Consumer concerns, p. 235
Consumer satisfaction/dissatisfaction, p. 61
Cotton batting, p. 71
Cotton/polyester, p. 218, p. 250
Cotton textiles, p. 40
Cushioning materials, p. 147

Dimethyloldihydroxyethyleneurea, p. 218
Durable press fabrics, flame retardance, p. 218
Dyes, p. 250

Electrical ignition, p. 3
Exothermicity of cellulose degradation, p. 3
Expert witness, p. 213

Fabrics, p. 15
Fire behavior, building contents, p. 203
Flammability, pps. 61, 71, 99, 127, 133, 150,161, 213, 235, 250
Full-scale Fire test, p. 262
Furnishings, p. 262
Furnishing materials, p. 189
Furniture, pps. 127, 150, 161, 235

Heat flux, p. 15
Household materials, p. 229
Hydrogen, p. 48

Inherently flame retardant polyester, p. 61
Insulation, p. 15

Mattresses, p. 71
Melamines, p. 40
Mushroom apparel flammability tester, p. 218

Penal institution, p. 71
Phosphonate esters, p. 218
Phosphorus, p. 40
Polyester foam, p. 71
Polyester/cotton blend fabrics, p. 26
Polyurethane foam, p. 99, p. 161
Product liability, p. 213
Protection, p. 15
PVBr-PVCl copolymer, p. 218

Smolder resistance, p. 40
Smoldering, p. 99, p. 172, p. 200
Standards, p. 213

Test for smoulder resistance, p. 3
Textile, p. 133
Textile flammability, p. 213
THPOH-NH_3, p. 218
Toxicity, p. 147, p. 189, p. 229

Upholstered furniture, p. 99
Upholstery, p. 40
